Participating Institutions

A college degree is valuable and so are your time and money. Let us help you compare transfer survey elements, review institution details and request further information from the school.

Transfer Agreements

Let us assist you in smoothly completing and then transferring your South Carolina 2-year degree to 4-year institutions by carefully reviewing money and time-saving Transfer Agreements.

Transfer Courses

Let us help you assess course and credit transferability while identifying potential transfer pathways best fitting your circumstances, location and interests.

Plan Your Transfer

When it comes to planning your transfer, there is no time like the present. Plan your coursework to avoid taking classes that will not count toward your degree.

Useful Areas for Students

The screenshot shows the website for the South Carolina Transfer and Articulation Center. The top navigation bar includes the logo and name, and links for Student, Faculty & Advisors, Administrators, About SC TRAC, and Contact Us. A 'Get Started Now!' dropdown menu is open under the Student tab, listing various resources. To the right, there is a 'Quick Links for Students' section with a list of search options. A blue callout box is overlaid on the left side of the page.

The information presented is an unofficial guide on how courses may transfer. Other factors to consider are grades received in the courses, the year in which the course was taken, and the major pursued after transfer. In all instances, final decisions about acceptance of course credit will be made by Coastal Carolina University.

Aiken Technical College

If you take these courses:

BIO 101 - Biological Science I

This course is a study of the scientific method, basic biochemistry, cell structure and function, cell physiology, cell reproduction and development, Mendelian genetics, population genetics, natural selection, evolution, and ecology. Laboratory exercises supplement lectures. 3.0-3.0-4.0

Credits: 4.00

Phone: (803) 593-9231

Aiken Technical College is regionally accredited by the Southern Association of Colleges and Schools (SACS), Commission on Colleges

Aiken Technical College is on a Semester calendar system

Coastal Carolina University

You may receive up to 4.00 credits for:

BIOL 121 - Biological Science I

An introduction to biological principles for students majoring in biology and related fields of study. Topics include scientific method, chemistry of life, macromolecules, cell structure and function, mendelian and molecular genetics. F,S,S1

Credits: 3.00

Notes: Department: Biology; CEEB: 5837;

BIOL 121L - Biological Science I Lab

Experiments related to topics in BIOL 121. Exercise topics include evolution, experimental design, data analysis, cellular respiration and macromolecules.

Credits: 1.00

Notes: Department: Biology; CEEB: 5837;

✓ Transfer Application Requirements

Minimum GPA:

Transfer students should have earned a cumulative grade point average of approximately 2.5 on a 4.0 scale (3.0 preferred). Majors such as architecture, visual arts, health science, nursing, general engineering, construction science, landscape architecture, performing arts, professional golf management, early childhood education, elementary education and secondary education social sciences have more selective standards. Please contact the admissions office for current requirements.

Official Transcripts:

Request final official transcripts to be sent from each college previously attended.

SAT Scores:

SAT/ACT scores are not required for transfer students who have at least 30 semester hours of transferable credit.

Letters of Recommendation:

International students are required to submit two letters of recommendation.

Essay:

An essay is not required.

Application Fee:

\$60.00, submitted with online application.

Interview:

Interviews are not required for admission. The admissions office is open from 8:00 a.m. - 4:30 p.m. Monday through Friday. Specific questions may also be sent to our virtual advisor at

<http://www.clemson.edu/admissions/undergraduate/contact.html>

Search for Transfer Agreements

Transfer Agreements are posted by institutions to show students how courses or degrees can transfer from one institution to another. Enter search criteria to view the agreements available to SC students.

NOTE: All search criteria is optional.

Search for Transfer Agreements Student > Search for Transfer Agreements

Use this search to find out if colleges have transfer agreements with one another.

Transfer or articulation agreements are formal agreements between two colleges or universities that define how courses taken or degrees earned at one college or university can be used towards fulfilling degree requirements at another college or university.

You can search for a particular College by selecting it from the drop down list. You can also search by keyword (such as 'art', or 'history') for a particular transfer agreement.

Creating a Student Account

What are the benefits for creating a student account?

By creating a student account you can:

- Enter and save your course history
- Find schools that award the most credit based on your course history.
- Create Equivalency Maps.
- Participate in Transfer Check.
- Store Documents.
- Share your information with recipients (e.g. school admissions and advisors).
- Receive valuable information from institutions that respond to your shared information.

Creating a Student Account

Select **Register** from the front page of SCTRAC.org.

Sign Up Sign Up

Already have a SC TRAC account? [Log in](#)

Creating a SC TRAC account will let you do the following:

- Compile your academic course history in one place and keep it safe.
- Combine coursework from multiple colleges and educational providers.
- Compare transferability using Course Equivalency Maps.
- Share your academic course history with colleges that interest you.
- Upload reference letters, essays and other documents in a storage center that you can then share.

Getting Started with your Student Account

Welcome

SC TRAC is designed to help make your transfer from one institution to another easier.

Transfer Planning in four Easy Steps

- Step 1: If applicable, speak with an advisor at your institution.
- Step 2: **Import or Update your Course History**
- Step 3: **Find your best transfer school or check your progress toward a part**
- Step 4: **Share Your Information**

SC TRAC is a tool to help you plan your transfer and should be used with the information and support you receive from your transfer counselor or advisor.

When it comes to planning your transfer, there is no time like the present. The longer you wait to make decisions, the longer it may take you to complete a degree and transfer. Do your best to complete the following steps as soon as possible:

- Declare your major.
- Select a transfer institution.

The following is a general timeline to assist you in planning your transfer.

Keep in mind, the process for transferring from one institution to another varies at each college. Each transfer institution makes the final determination about how many and which credits transfer. Credits that transferred to a previous institution may or may not transfer or count toward a degree at another institution. The only way to know for sure is to ask your academic counselor or advisor and to get an agreement in writing. Make sure you are working with both an academic advisor at your current institution and an admissions counselor at institution where you plan to transfer.

When everyone is involved in the process, you are less likely to lose credits and more likely to stay on track to a college degree!

The Welcome area will take you through steps to make your transfer planning easier. Follow the steps to enter your course history, find your best transfer institution and share your information with recipients.

Transfer Check Transfer Check

Find your best Transfer Schools

If you are interested in seeing how your coursework would transfer to a four-year South Carolina institution, we can help you find your desired institution and program. Otherwise, you may use our Equivalency Maps feature to see how your courses transfer in general to any transfer institution in South Carolina.

I want to see a detailed plan of how my credits will transfer

We will ask you a series of questions to help guide you towards transferring into a particular major at a four-year South Carolina Institution.

I want to explore all my transfer options

View how each of your courses may transfer into South Carolina institutions by using Equivalency Maps.

Click the top button to view a detailed plan of how your credits will transfer to a particular major at a four-year institution.

Click the bottom button to see how your courses might transfer in general to any South Carolina institution. **Note:** Selecting this option leads to the Equivalency Maps.

For a detailed guide on the Transfer Check process, please refer to the **SC Student Transfer Check User Guide**.

My Course History – Find Transfer Institutions

Transfer Check Transfer Check

Find your best Transfer Schools

If you are interested in seeing how your coursework would transfer to a four-year South Carolina institution, you can use our Transfer Check tool to find your desired institution and program. Otherwise, you may use our Equivalency Map tool, which provides information on course equivalency general to any transfer institution in South Carolina.

I want to see a detailed plan of how my credits will transfer

We will ask you a series of questions to help guide you towards transferring into a four-year institution.

I want to explore all my transfer options

View how each of your courses may transfer into South Carolina institutions by using Equivalency Maps.

Clicking on the bottom option will show you a list of institutions and how your courses might transfer. You may select different institutions to compare how your credits might transfer. When finished selecting, click "View Selected Institutions."

Find Transfer Institutions

Explore institutions to which your courses may transfer.

The information presented is an unofficial guide to how your courses may transfer. Other factors to consider are grades received in the courses and the major you will pursue after transfer. In all instances, final decisions about acceptance of course credit will be made by the individual institution.

✓ View Selected Institutions

The following suggestions are based on the course history (6 courses / 17.00 credits) that you have provided and information provided by member institutions. You can select up to three institutions for comparison to see which institution is the best fit for you. Select the institution's name to see its Profile.
